OTHER INFORMATION

- **Studied Bachelor's in Entrepreneurship and Investment Management at the University of Economics Varna, completing coursework through the third year. Decided to transition to self-study programming languages, pursuing a new passion for technology and development.**
- **During my bachelor's studies, I participated in a 4-month cultural exchange program in the USA. Although I chose to leave university after my third year, I have no regrets, as the experience greatly enriched my personal and professional development.**
- **During my studies at the University of Economics, I studied the basic concepts of disciplines such as Quality Assurance (QA), Management Theory, Introduction to Finance, Internet Technologies, Management of the Investment Process, and Human Resources Management, providing a strong foundation for further development in these areas**
